## OBSERVATIONS

OF THE

## AGRICULTURAL STATISTICS OF IRELAND,

FOR THE YEAR 1875.

TO HIS GRACE JAMES, DUKE OF ABERCORN, K.G.

Es., Es., Es.,

LORD LIEUTENANT-GENERAL AND GENERAL GOVERNOR OF IRELAND.

MAY IT PLEASE YOUR GRACE,

I beg to forward detailed tables giving the number of holdings, classified according to their extent, and showing by Counties, Baronies, and Poor Law Unions, the acreage under crops, and the number and description of live stock in 1875.

## PART I.—TILLAGE.

The acreage under tillage, grass, fallow, woods and plantations (according to the returns), and bog and waste in 1875, was as follows:—

Under Crops, including Meadow and Clover, . . . . .	5,332,813 Acres.
" Grass, or Pasture, . . . . .	10,440,329 "
" Fallow, . . . . .	10,884 "
" Woods and Plantations, . . . . .	318,665 "
" Bog, Waste, &c.,* . . . . .	4,245,023 "
Total, . . . . .	20,337,196 "

The area under crops in 1875, compared with 1874, (including cereals, green crops, flax, rape, and meadow and clover,) showed an increase of 68,809 acres; grass (exclusive of meadow and clover) decreased by 63,093 acres; fallow by 1,238 acres; and woods and plantations by 3,603 acres; bog and waste increased by 4,125 acres.

The area and proportionate extent of each crop in 1874 and 1875, with the increase or decrease in the acreage in the latter year, are given in Table I.

The variations in the crops of 1875, compared with 1874, were an increase in cereals, green crops, vetches, rape, and flax, of 25,812 acres. Of cereals, oats shows an increase of 20,970 acres, barley of 22,295 acres, bere and rye of 429 acres, and beans and pease of 322 acres; wheat decreased by 28,983 acres. In green crops, potatoes increased by 8,161 acres; mangel wurzel and beet root by 4,897 acres; carrots, parsnips, and other green crops by 2,435 acres; cabbage by 1,762 acres, and vetches and rape by 307 acres; turnips decreased by 1,050 acres; and flax by 5,733 acres. The extent under meadow and clover increased by 37,997 acres.

Of the total extent under tillage, 81·5 per cent., or over four-fifths, were under three crops—viz., oats, potatoes, and hay.

\* Under this head is included the area of barren mountains, roads, towns, and highways; also fall water except that of the larger rivers and lakes. On some of the mountains and other lands designated "waste," considerable quantities of stock were grazing at the period of enumeration.

Average  
under the  
principal  
crops.

TABLE I.—The acreage under the principal crops in 1874 and 1875, and the increase or decrease in the latter year:—

From the foregoing Table it appears that in 1875—36.0 acres in every 100 were under cereals; 25.3 under potatoes, turnips, and other green crops; 1.9 under flax; 36.4 under meadow and clover, and 0.4 under vetches and rape.

Grazing  
land.

The extent of land under grass in 1875 (*exclusive of the acreage under meadow and clover*) was 10,409,329 acres, or 51.2 in every 100 acres of the entire country. The relative proportions under grass in the Provinces were—in Munster 57.4 per cent. in 1875, and 57.7 in 1874; Leinster had 54.8 per cent. in 1875, and 54.5 in 1874; Connaught 49.6 in 1875, and 50.2 in 1874; and Ulster 42.8 acres in every 100 in 1875, and 43.0 in 1874.

Of the counties—Meath, Limerick, Westmeath, and Clare had above 60 acres in every 100 of their entire area under grass. Kilkenny, Fermanagh, Roscommon, Tipperary (North Riding), Leitrim, Cork (West Riding), Tipperary (South Riding), Kerry, and Cork (East Riding), had above 55 and under 60 acres in every 100 occupied as grazing land. Kildare, Antrim, Wicklow, Waterford, Galway, Cavan, Carlow, Sligo, Queen's, and Wexford, had from 50 to 55 per cent. of their entire area under grass. Longford, King's, Dublin, Londonderry, and Monaghan, had above 40 and under 50; and Tyrone, Mayo, Louth, Armagh, Down, and Donegal had from 33 to 39 acres in every 100 under grazing land.

The area of each county, and the extent and per-centage under grass in 1875, are given in the succeeding table—the counties being arranged in the order of the largest proportion under pasture.

As in many instances landholders occupy more than one farm, it has been considered desirable to ascertain the number of persons having more than one holding; a Form was therefore prepared, in which the Enumerator was required to enter the name of every landholder who had two or more farms, together with the area of each holding, and the locality in which it was situated.\* The numbers are given in Table IV. by counties and provinces. On comparing the results in this table with the figures in the preceding one (page 6), it appears that in 1875 there were 585,483 holdings in the hands of 585,825 occupiers.

The number of separate holdings and the number of occupiers in each Province were as under in 1875:—
